

Spantech is committed to sustainable development throughout the operations of the company. Continual improvement in environmental performance will be achieved by setting objectives, measuring progress and communicating results.

To deliver sustainable development, we will:

- communicate Spantech's Environmental Policy and procedures to all relevant stakeholders including employees and others working on our behalf;
- comply with all applicable environmental laws, regulations, statutory obligations and relevant codes of practice;
- maintain environmental management systems that are appropriate to the nature and scale of our business;
- make business decisions that work towards achieving sustainable development;
- ensure that our employees, subcontractors, suppliers and consultants are aware of and have the necessary skills to fulfil their environmental obligations with respect to Spantech's operations;
- strive to conserve resources and eliminate or minimise adverse environmental effects and risks that may be associated with our services and operations;
- manage waste in order of preference: avoid waste; re-use; recycle; energy recovery; or correct disposal;
- work with our clients and other stakeholders to help them achieve their environmental objectives and obligations; and
- periodically review and revise our Environmental Policy and procedures to maintain their relevance.

We will respond to the environmental challenges in all areas of our business and it is the responsibility of every employee to implement this policy.
